# NEARSHORE SOFTWARE DEVELOPMENT

How can we help?

## THE COMPANY

atale.io

Competency Centre in Information Technology  
Leiria - Portugal

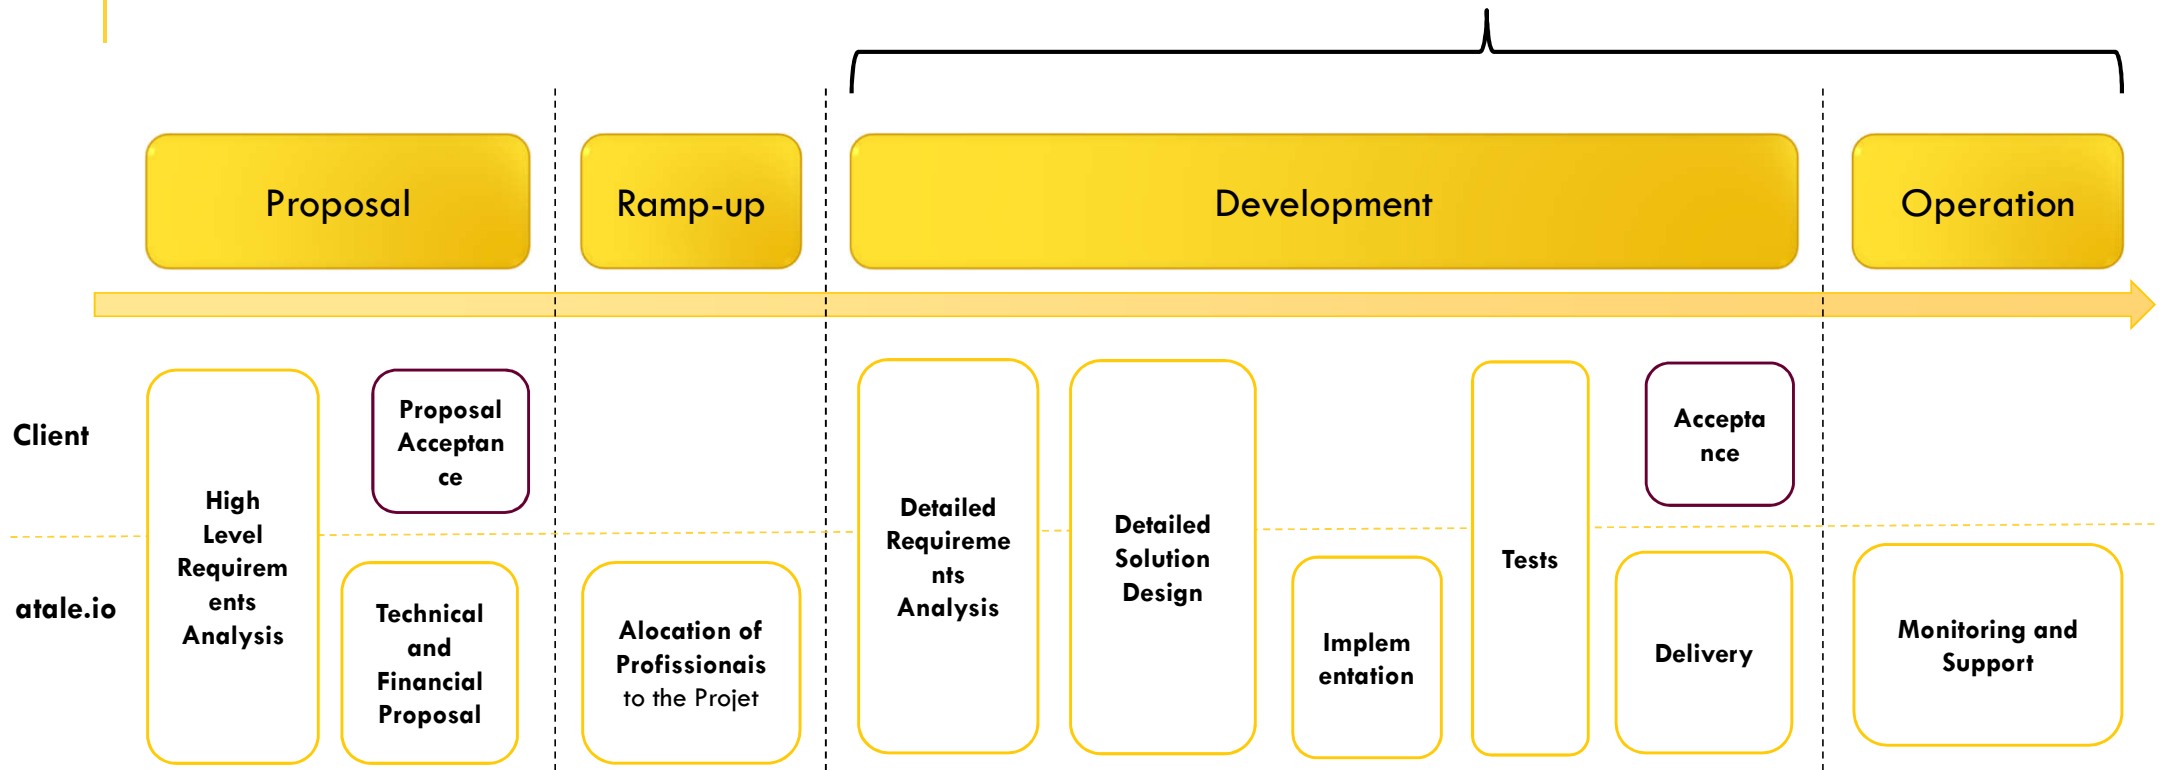

- Search for IT professionals is still increasing >> Scarcity of professionals in the market >> Adaptation to this reality and adoption of other models of collaboration

# NEARSHORE SOFTWARE DEVELOPMENT

- Focus on:
  - Identification of the needs and suitability of the solution.
  - Involvement / visibility to the client.
  - Reactivity and alignment on timings.
  - Quality - functional, robustness.
- Carefully selected programmers.
- Professional project management.
- Continuous integration/testing/deployment.
- Java, .NET C# and others.

# STAGES

Several iterations if the project adopts an agile development methodology.

# NEARSHORE COLLABORATION MODEL

## Remote, from Leiria - Portugal:

- Centre Region, 1h15 from Lisbon / 1h30 from Oporto.
- GMT Time – Same as the UK/Ireland, 1h less than in France/Spain.

## Communication:

- Video-conf, Phone, Chat, Ticketing System.
- VPN access to customer infrastructure.
- English speaking team elements.
- Regular trips to the client.

## Flexibility and Reactivity:

- Adaptation to the client's work methodology and tools.
- Possibility to cover extended hours – e.g. 8h-20h, 24/7
